Ridge Walk

Notes for the walking club's spring outing along the ridge above the valley.

Packing list

- A waterproof jacket with a hood, because the ridge path is exposed and the forecast changes quickly in the afternoon.
- Two litres of water and a flask of tea.
- A paper map of the valley and a compass, in case the phone loses its signal behind the northern shoulder of the hill.

Everyone carries their own lunch; the café at the top closes at three.

Route

1. Park at the village hall and follow the lane past the mill.
2. Cross the footbridge and climb the stone steps to the gate.
3. Turn left along the wall until the cairn comes into view.

The walk takes about four hours with a stop at the cairn.
