# Harbour Gazette

## Section 1

A second item concerned the lights on the pier. Several lamps have failed. The board will replace them with lower-energy fittings. These should last longer and cost less to run. The electrician will survey the cabling first, because some of it dates from the nineteen-sixties. Section 1 ends here.

## Section 2

Finally, the board discussed the summer regatta. Entries are already up on last year. Parking will again be a problem. The car park behind the chandlery will be opened for the weekend, and a shuttle bus will run from the village green every twenty minutes. Section 2 ends here.

## Section 3

The harbour board met on Thursday to review the winter maintenance plan. Members agreed that the north wall needs new capping stones. The cost estimate came in lower than expected. Work will start once the spring tides have passed. Section 3 ends here.

## Section 4

A second item concerned the lights on the pier. Several lamps have failed. The board will replace them with lower-energy fittings. These should last longer and cost less to run. The electrician will survey the cabling first, because some of it dates from the nineteen-sixties. Section 4 ends here.

## Section 5

Finally, the board discussed the summer regatta. Entries are already up on last year. Parking will again be a problem. The car park behind the chandlery will be opened for the weekend, and a shuttle bus will run from the village green every twenty minutes. Section 5 ends here.
