# Ferry Notes

## Ferry Notes

The ferry runs hourly[1] between the east pier and the island. The deck holds 120 m² of cars.

Harbour dues rose[2] in April. The tank holds 450 cm³ of water and the air has little $CO_2$ in it.

The surveyor’s note ends the page with a mark after its last word.[3]

[1] Except on public holidays.

[2] By five per cent.

[3] Written in March.
